

# Michelin Incentive Event

Northern Tasmanian Adventure Incentive May 2006

## The Experience

Over two days, two groups of 106 Spanish based Michelin employees enjoyed a Tasmanian adventure based program in the Meander Valley Region. Departing Cradle Mountain, the groups chose from morning activities of rafting, abseiling and caving or a scenic coach drive through the area. Lunch was a gourmet bush tucker affair at the Trowunna Wildlife Park.

## Incentive Activities

Activities on offer were white water rafting on the Meander River along with wild caving in the Honeycomb Cave, a river cave, which shows boisterous waterfalls and wet drippy formations. Beneath formations and erosion passages there is a wealth of cave life to explore. On site you they also experienced the art of abseiling with experienced guides adapting the program to comfort levels of participants. A scenic coach drive to the Sheffield region was taken up by the not so adventurous

## Lunch at Trowunna

Lunch was a bush tucker affair at Trowunna Wildlife Park with offerings of soup followed by native spiced trout, roast venison, roast beef & lamb, roast wallaby and wallaby/venison sausages. This was accompanied by vegetables and salads, freshly baked bread and some great Tasmanian cool climate wine and beers. An array of bakery slices and coffee finished off a great lunch with the language barrier creating some amusing challenges.

## Trowunna Wildlife Park

The groups spent the afternoon wandering around the Trowunna Wildlife Park with attendants on hand to offer photographic opportunities with the Tasmanian devils and wombats. Hand feeding the kangaroo and wallaby species was also a great favourite. The groups left Trowunna for their overnight destination at Launceston.

Agent-Southbound: Comment from Pepper Bush Adv: Notably our biggest event and everything went smoothly with our Spanish guests enjoying the activities on offer on their transfer from Cradle Mountain to Launceston.
