

Pfizer Team Building Event

May 2009

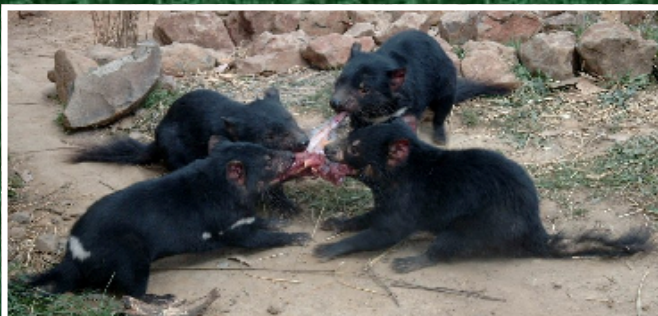

The Experience

18 employees from Pfizer were collected from Cradle Mountain at 1.00 pm by six 4WD's and asked to use the prepared instructional material to navigate their drivers through the stunning mountainous region to locate tasting venues as well as complete a cryptic crossword with clues relating to the environment that they were passing through.

Their navigational skills guided them to champagne and strawberry tasting on a mountain scenic look-out, through scenic country roads and to a local vineyard for wine and cheese tasting.

The teams were also required to seek out local identities and have their photo taken with them along with beer and scone tasting in a local restaurant. Ribbons were collected by each team at each venue which gave a score to be added to their teams total. Seeking ribbons took them to some wonderful places such as inside caves where only the persistent prevailed. Honey tasting at Chudleigh Honey Farm was also enjoyed by all.

The final navigational instructions took the teams to Trowunna Wildlife Park where they had a private hands on encounter with the Tasmanian Devil.

Pepper Bush Adventures utilized their remote catering trailer to produce a gourmet bush tucker meal which was enjoyed inside the Trowunna facilities which oozed a cosy bush ambiance and was followed by local brothers Ben & Josh who entertained with a huge range of favorites for all to enjoy. Their talents left everyone enthralled with their acoustic and vocal abilities. The teams reluctantly departed for Cradle Mountain by bus at around 9.00 pm.

Feedback from the client

Thank you for a day enjoyed by everyone involved.
Mark—Pfizer
